

## Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 2<sup>nd</sup> October, 1882.Sir

Having observed the coal received by this Department from William Jordan to be occasionally lumpy or slaty I determined approximately the quantity of the impurity. Finding that it did not exceed 3 pr. ct. of the total supply, and that it generally fell below this I did not deem it sufficient to warrant withholding my approval of his bill. I urged him however to draw the attention of Sharp, Leisenring & Co. to the facts of the case, so as to amend the quality as far as practicable.

Very respectfully  
J. C. Booth

Hon. A. Loudon Snowden  
Superintendent.

Mint of the United States at Philadelphia,  
Melting and Refining Department,  
Philadelphia,  
October 2, 1882

Sir

Having observed the Coal received by this Department from William Jordan to be occasionally bony or slaty I determined approximately the quantity of the impurity. Finding that it did not exceed 3 pr. ct. of the total supply, and that it generally fell below this I did not deem it sufficient to warrant withholding my approval of his bill. I urged him however to draw the attention of Sharp, Leisenring & Co. to the facts of the case, so as to amend the quality as far as practicable.

Very respectfully,  
Jas. C. Booth  
M & R

Hon. A. Loudon Snowden  
Superintendent.
